### **Boats x2**

1. We have just acquired 10 canoes for both days. Wellington Lake has completely rented out all of its boats so this is your next best option. Please contact [CoAdventureRacing@gmail.com](mailto:CoAdventureRacing@gmail.com) if you would like to reserve a canoe for the entire race day as soon as possible.
2. The boat sections for all 3 races will now be on flat water, as opposed to the class 3 rapids that had been planned for the 12-hour race.

### **Course Update**

This year's race is turning out to be a bike heavy race. Get those quads and glutes ready!!

We are working on having a simple top-rope climbing and/or rappel section for the race, but this is only tentative at the moment. We are hoping to have harnesses available to use, but you can bring your own gear if you have it. We will continue to update you as the course is planned.

## **Gear**

All teams must have at least one 1:24,000 UTM tool for the orienteer section. Attached is a video on how to use a UTM tool.

## **Rules**

Please review the rules of travel [here](#).

## **Wellington Lake on Google**

On Google maps or your maps app, enter Wellington Lake, as your destination, not the physical address. Maps may direct you to take Forest Road 543, Forest Road 550, or Forest Road 560. These roads are not maintained year-round, can be impassable after snow events, and are subject to Forest Service closures. The most reliable route is through Bailey and County Road 68.

## **Cancellations**

Since we are about one month out from race day, we are no longer offering cancellations with full refunds. We certainly can offer a credit for next year's race. If you need to cancel your race spot, please email us.

### **Cell Reception**

Don't expect cell reception once you get to the camp! Please make your calls before you get to the race.
